SC DEPARTMENT of ENVIRONMENTAL SERVICES

Coastal Zone Consistency Determination

To:	James Myers, BOAQ Air Permitting Division
From:	James L. White, BCM Coastal Zone Consistency Division
Applicant:	Iris Griffin, Dominion Energy South Carolina, Inc.
Project Name:	Dominion Energy South Carolina Inc Canadys Station
Finding:	Conditionally Consistent with the SC Coastal Zone Management Program
Site Location:	13139 Augusta Highway, Walterboro, Colleton County, South Carolina (TMS#: 044-00-00-083.000)
Reference #:	HQN-4B0W-F51QC
Date:	November 19, 2026

The staff of the Bureau of Coastal Management (BCM) reviewed the above-referenced Coastal Zone Consistency project request for an air construction permit associated with a new energy-related project. This requested State CZC is only for the air permitting activities as described in the air permit application reference # HQK-VNVB-V6Z7V.

The overall project will be designed as a baseload power generation station with an estimated net electrical output of approximately 2,200 megawatts (MW). The project will consist of the installation of three (3), independent, advanced-class, multi-shaft, one-on-one (1x1) combined cycle combustion turbine (CCCT) power trains. Each power train will include a combustion turbine-generator (CTG), a heat recovery steam generator (HRSG) equipped with supplementary firing (duct burners), and a steam turbine-generator (STG), configured to operate in a combined cycle arrangement. Ancillary equipment planned for installation as part of the project includes: one (1) natural gas-fired auxiliary boiler, three (3) diesel-fired emergency generators, two (2) diesel-fired emergency fire water pumps, four (4) natural gas-fired fuel gas heaters, sixty six (66) sulfur hexafluoride (SF6) high-voltage circuit breakers, two (2) three-million gallon aboveground storage tanks (ASTs) for fuel oil, and two (2) 40,000-gallon ASTs storing <20% aqueous ammonia.

This specific CZC Certification for the proposed air permit referenced above will not involve any land disturbance activities that could impact onsite wetlands.

We hereby certify that the above referenced project is **Conditionally Consistent** with the ***Guidelines for Evaluation of All Projects*** as well as the Wildlife and Fisheries Management, Energy and Energy Related Facilities, and Activities in Areas of Special Resource Significance *(Public Open Spaces),* policies contained in the S.C. Coastal Zone Management Program provided the following conditions are included in the permits and adhered to by the applicant.

1. The Bureau of Air Quality's regulatory programs in issuing these permits will ensure air quality standards are met and adhered to as required by law.

This determination shall serve as the SCDES BCM Coastal Zone Consistency Determination for the work described above. However, this determination ***does not*** serve as a Department permitting decision and ***does not*** alleviate the applicant's responsibility to obtain any applicable State or Federal permit(s) for the work. Local government authorizations ***may also*** be required.
