

# Review Suggested Draft River Basin Plan Revisions

# Suggested Revisions

## Chapter 2, pgs. 2-4 through 2-9

- SCDNR-suggested revisions to correct references, figures, and wording.

## Chapter 5, pg. 5-11

- RBC member suggested revision to indicate that the safe yield calculations allow for overallocation of water resources (which is also noted elsewhere in the report)

# Suggested Revisions

## Chapter 6, pgs. 6-31 through 6-34 (Table 6-24)

- RBC member suggested revisions to modify and clarify **Socioeconomic Effects** feasibility for certain strategies.

# Suggested Revisions

## Chapter 9, pgs. 9-5 and 9-8

- RBC member suggested revisions to better support the discussion regarding recommendation for use of median over mean.

## Pg 9-9

- Revision to capture RBC member discussion point about existing regulation not being protective of minimum flows.

# Suggested Revisions

## Chapter 10, pgs. 10-1, 10-2, 10-9, and 10-15

- RBC member suggested revisions:
  - As part of the **Implementation Plan** and **long-term planning objectives**, add RBC consideration of water quality in future RBC deliberations (added as 7<sup>th</sup> Objective) *(suggested revision was not approved by the RBC)*

## Pg 10-6

- RBC member suggested revisions:
  - Revision to add specific talking points to the “**communicate with legislative delegation**” **strategy** regarding overallocation and grandfathered status *(suggested revision was not approved by the RBC)*
