

**Memorandum**

**Date:** August 28, 2024

CERTIFIED LETTER  
RETURN RECEIPT REQUESTED

**To:** Interested Parties

**From:** Katelyn Mills, Project Manager  
Mining & Reclamation Section

**Re:** Approval of Application and Reclamation Plan for a Mine Operating Permit  
Issuance of an Individual Mine Operating Permit  
Mine Permit Application I-002411 | Adrian Sand/Clay Mine | Horry County

Dear Interested Party:

The South Carolina Department of Environmental Services (SCDES) has completed the review of information submitted for the mine operating permit for Adrian Sand/Clay Mine, requested by Adrian Sand LLC (Operator). This review process included information submitted by the Operator, comments from governmental agencies, and the interested public. The requested permit has a total permitted area of 52.3 acres, consisting of 29.3 acres of affected area, and 23.0 acres of buffer. Adrian Sand LLC can affect 15.7 acres of land at one time. There will be no processing on site and the reclamation plan proposes to reclaim the site as a lake/pond and grasslands. Pursuant to the S.C. Mining Act, SCDES has approved the Mine Operating Permit.

SCDES has created a Summary Response to Comments to address the various topics that were brought up during the public comment periods. A copy of that Summary Response to Comments may be found on SCDES's website for this project: <https://des.sc.gov/community/environmental-sites-projects/adrian-sandclay-mine-horry-county>

If you would like a physical copy of the Summary Response to Comments mailed to you, please contact me at the e-mail address or telephone number listed at the top of this memo, or write to me at the mailing address listed at the bottom of this memo.

S.C. Code Ann. § 48-20-190 provides:

*"An applicant for a certificate of exploration or operating permit or a person who is aggrieved and is directly affected by the permit may appeal to the [mining] council from a decision or determination of the department issuing, refusing, modifying, suspending, revoking, or terminating a certificate of exploration or operating permit or reclamation plan, or imposing a term or condition on the certificate, permit, or reclamation plan. . . The person taking the appeal within thirty days after the department's decision shall give written notice to the [mining] council through its secretary that he desires to appeal and file a copy of the notice with the department at the same time."*
