Re: Response to Assessment Report
Former Ducane Company Site
Updated Assessment Report dated September 28, 2022
Barnwell County
Voluntary Cleanup Contract 16-5848-RP
File # 401356

Dear Ms. Unger,

The South Carolina Department of Health and Environmental Control (Department) has reviewed and approves the assessment report. The Department has the following comments.

1. The Department concurs with submitting a Feasibility Study Work Plan.
2. To determine the integrity of monitoring well MW-1D, the Department concurs with conducting a downhole camera survey.
3. The Department noted the request to convert monitoring well MW-4D into a deep injection remediation and to inject a sodium or potassium permanganate product into the well. To implement this process an underground injection permit (UIC) needs to be approved prior to ensure to be in compliance with the regulations.

Please submit the feasibility study work plan, to my attention, on or before February 17, 2023. Please feel free to contact me with any questions or comments to kuhnkm@dhec.sc.gov or call me at (803) 898-0722.

Sincerely,

Kimberly Kuhn, Project Manager
State Voluntary Cleanup Program
Site Assessment, Remediation & Revitalization Division
Bureau of Land and Waste Management
