SITE ASSESSMENT,
REMEDICATION &
REVITALIZATION

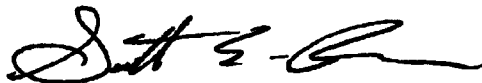

Dear Ms. Walker:

In your May 25, 2016 letter to Philips Lighting (Philips), the South Carolina Department of Health and Environmental Control (SCDHEC) requested submittal of a 3-Dimensional Model (3-D Model) of the Shakespeare Composite Structures Site (Shakespeare Site). In response to this request we are submitting the attached compact disc (CD) that contains electronic copies of a lithologic model and the contaminant distribution in groundwater model for the Shakespeare Site. These models have been developed based on information collected from the Shakespeare Site to date.

Should you have any questions regarding these models please feel free to contact me at your convenience.

Sincerely,

AECOM Technical Services, Inc.

Scott E. Ross, P.G.
Project Manager
