Subject: **August** 2026 CA Progress Report

Mr. Cassidy:

In accordance with Item 19 of Consent Agreement (CA) 19-02-HW, this progress report is being submitted to you, including the following requested information:

(a) a brief description of the actions which Westinghouse has taken toward achieving compliance with the Consent Agreement during the previous month;
(b) results of sampling and tests, in tabular summary format received by Westinghouse during the reporting period;
(c) a brief description of all actions which are scheduled for the next month to achieve compliance with the Consent Agreement, and other information relating to the progress of the work as deemed necessary or requested by the Department; and
(d) information regarding the percentage of work completed and any delays encountered or anticipated that may affect the approved schedule for implementation of the terms of the Consent Agreement, and a description of efforts made to mitigate delays or avoid anticipated delays.

In response to the above requirements, the following is being reported to the Department since the last progress report submitted on **August 11, 2026.** The following progress report is for work occurring from **August 1- 31, 2026**:

(a) Actions during the previous month:
- Submitted the report for the Middle Ditch Work Plan to SCDES on August 25, 2026.
- Submitted a request for renewal to operate under the site's Underground Injection Control Permit # SCHE000102. The request for renewal was approved by the SCDES Division of Water Resources on August 21, 2026 and expires on August 21, 2027.
- Continued preparing the Uranium Source Assessment Report for W-56, including the supporting Technical Basis Document.
- Clemson University began preparing the draft treatability study report.

Pilot Study Work Plan
- Continued the Technetium-99 (Tc-99) bench-scale treatability study work.
- Completed the 12-month performance monitoring well sampling from August 24-27.

(b) Results of sampling and tests:
- None

(c) Brief description of all actions which are scheduled for the next month:
- Finalize and submit the Uranium Source Assessment Report for W-56.

Pilot Study Work Plan
- Clemson University will finalize nitrate analysis and continue preparing the draft treatability study report.
- Meet with AECOM and site contractor on September 3 to evaluate the implementation strategies for underground injections associated with the uranium and Tc-99 Pilot Studies.

(d) Percentage of work completed, and any delays encountered or anticipated:
- 100% of the **Remedial Investigation** is complete**.**
- 100% of the **Groundwater Flow Model** is completed.
- 100% of the **Feasibility Study Work Plan** is completed.
- 100% of the **Groundwater Fate and Transport Model** is completed.
- 90% of the **Feasibility Study** is completed.
- 100% of the **Pilot Study Work Plan** is completed.
- 59% of the **Pilot Study** is implemented.
- Currently there are no anticipated delays.

Respectfully,

Diana P. Joyner
