RE: Second Notice to Comply
UPPER SUNNY HILL POND DAM, Dam Number (D2523)

Dear Owners,

By Certified letter dated October 24, 2024, the Department sent you a Notice to Comply based on requirements from a preliminary inspection of your dam and listed required actions for you to complete to bring the dam back into compliance.

As of the date of this letter, the Department's records indicate that you have not fully complied with the requirements of the Department's October 24, 2024, letter. The Department is granting an extension for the required information based on the request to collaborate to discuss potential solutions. Therefore, at this time, the Department requires:

- **Submission of a permit application prepared by a registered Professional Engineer licensed in South Carolina by March 28, 2025.**
- **Submission photographic documentation of the completion of required maintenance items, or have your engineer address maintenance concerns within the permit application by March 28, 2025.**

Additional information or documentation may be required by the Department to determine compliance with the requirements of this letter.

If you believe it necessary, you may contact the Department to discuss the possibility of an extension to these deadlines.

Failure to maintain the dam in a safe condition is a violation of the SC Dams and Reservoirs Safety Act, S.C. Code Ann. 49-11-110, et seq., (2008). Failure to comply may result in the Department taking an enforcement action, which may include the assessment of civil penalties pursuant under the SC

Dams and Reservoir Safety Act, S.C. Code Ann. 49-11, et seq. (2008) and Regulation 72-1, et seq. (2012).

All correspondence should be directed via email, or to:
