

Policy Group XII - Activities in Areas of Special Resource Significance

Project Name: _____

TMS: _____

The Agency's Coastal Zone Consistency (CZC) certification review of all activities within the Coastal Zone that require a State permit will be based on the policies contained within the project based checklists. For the CZC request to be complete, you must answer the questions contained within the policies segment relative to your project by checking off all that apply. More than one checklist may apply to your project based on the plan proposal. For example, a road or highway project might also require dredging and filling of coastal wetlands.

A) **Barrier Islands:**

Required: Will your proposed project or plans on a barrier island...

a. retain to the extent feasible existing dune ridges, drainage patterns and natural vegetation in landscaping and construction plans in order to maintain the value of the island as a storm buffer?

or is this N/A?

b. demonstrate reasonable precautions to prevent or limit any direct negative impacts on the adjacent critical areas (beaches, primary dunes, coastal waters and wetlands) because of their proximity to and strong ecological relationship with the critical areas of the coastal zone?

or is this N/A?

c. avoid new road or bridge projects involving the expenditure of public funds to provide access to previously undeveloped barrier islands unless an overwhelming public interest can be demonstrated such as access to a public recreation area or facility?

or is this N/A?

d. include the extension of public services, such as sewer and water facilities that are proposed in a comprehensive approach, which considers the natural "carrying capacity" of the island to support development and which integrates these facilities to parallel the level of access which is available to the island?

or is this N/A?

e. include any efforts to acquire portions of the barrier island for inclusion in preservation and protection programs?

or is this N/A?

f. be consistent with the Priority of Uses of each listed Geographic Areas of Particular Concern (GAPCs) as discussed in the Geographic Areas of Particular Concern (GAPCs) Polices and Priority of Uses document located on the Resources section of the CZC webpage?

or is this N/A?

Required:

As applicant or agent, having completed all appropriate checklists and having read the applicable polices, I certify that this project is consistent with the South Carolina Coastal Zone Management Program based on the information outlined above and supplemental information attached.

Signature and date

B. Dune Areas:

Required: Will your proposed project or plans in dune areas...

a. <input type="checkbox"/> demonstrate reasonable precautions to prevent or limit any direct negative impacts on the adjacent critical areas because of proximity to and strong physical and ecological relationship with the beach and primary sand dune critical areas of the coastal zone? <input type="checkbox"/> or is this N/A?
b. <input type="checkbox"/> prevent or mitigate negative impacts on adjacent property owners, specifically, increased erosion or loss of protective dune formations on adjacent lots due to unnecessary destruction of or encroachment onto stable dunes? <input type="checkbox"/> or is this N/A?
c. <input type="checkbox"/> be consistent with the policies of the Beach Erosion, and Beach and Shoreline Access sections (Chapter IV - 41) of the CZMP, as well as other applicable Resource Policies? <input type="checkbox"/> or is this N/A?
d. <input type="checkbox"/> be consistent with the Priority of Uses of each listed Geographic Areas of Particular Concern (GAPCs) as discussed in the Geographic Areas of Particular Concern (GAPCs) Polices and Priority of Uses document located on the Resources section of the CZC webpage? <input type="checkbox"/> or is this N/A?

Recommended policies to consider in designing impoundments:

- a. *Local governments with coastal shorefronts are encouraged to develop and implement strong local zoning and building ordinances for beach and sand dune areas.*
- b. *Property owners, development interests and local governments are encouraged to institute and observe setbacks or buffer zones for construction in beach and dune areas.*

Required:

As applicant or agent, having completed all appropriate checklists and having read the applicable polices, I certify that this project is consistent with the South Carolina Coastal Zone Management Program based on the information outlined above and supplemental information attached.

Signature and date

C. Navigational Channels

Required: Will your proposed project or plans in navigable channels...

a. <input type="checkbox"/> avoid losses to existing navigability? <input type="checkbox"/> or is this N/A?
b. <input type="checkbox"/> utilizes best mitigation measures feasible for development which might increase upland soil and shoreline erosion problems and resulting siltation of navigation channels? <input type="checkbox"/> or is this N/A?
c. <input type="checkbox"/> avoid interfering with commercial navigation in designated shipping channels? <input type="checkbox"/> or is this N/A?
d. <input type="checkbox"/> be consistent with the Dredging and Dredge Material Disposal policies contained within the CZMP? <input type="checkbox"/> or is this N/A?
e. <input type="checkbox"/> be consistent with the Priority of Uses of each listed Geographic Areas of Particular Concern (GAPCs) as discussed in the Geographic Areas of Particular Concern (GAPCs) Polices and Priority of Uses document located on the Resources section of the CZC webpage? <input type="checkbox"/> or is this N/A?

Required:

On an attached sheet, briefly summarize how your project is consistent with the policies of the South Carolina Coastal Zone Management Program listed above.

Required:

As applicant or agent, having completed all appropriate checklists and having read the applicable polices, I certify that my project is consistent with the South Carolina Coastal Zone Management Program.

Signature and date

D. Public Open Spaces (State or Local Parks):

Required: Will your proposed park project or plans...

a. <input type="checkbox"/> avoid restriction or limitation of the continued use of a recreational open area or disruption of the character of such a natural area (aesthetically or environmentally)? <input type="checkbox"/> or is this N/A?
b. <input type="checkbox"/> increase the amount and distribution of public open space and recreational areas in the coastal zone? <input type="checkbox"/> or is this N/A?
c. <input type="checkbox"/> be consistent with the Priority of Uses of each listed Geographic Areas of Particular Concern (GAPCs) as discussed in the Geographic Areas of Particular Concern (GAPCs) Polices and Priority of Uses document located on the Resources section of the CZC webpage? <input type="checkbox"/> or is this N/A?

Required:

As applicant or agent, having completed all appropriate checklists and having read the applicable polices, I certify that this project is consistent with the South Carolina Coastal Zone Management Program based on the information outlined above and supplemental information attached.

Signature and date

E. Wetlands:

Required: Will your proposed project or plans...

a. require the fill or other significant permanent alteration of a productive freshwater marsh? If so, does your project demonstrate that no feasible alternative exists or there is an overriding public interest? Explain why there are no feasible alternative exists and what the public interest is in the summary section below.

or is this N/A?

b. (for filling, ditching, clearing, or excavation of wetlands) demonstrate mitigation sites or practices to offset the losses of wetlands consistent with the Division's Mitigation Guidelines? The types of mitigation include wetland buffers, creation of wetlands, and restoration of existing wetlands, offsite mitigation, and mitigation banking. Provide a summary of mitigation details on an attached document.

or is this N/A?

c. be consistent with the Priority of Uses of each listed Geographic Areas of Particular Concern (GAPCs) as discussed in the Geographic Areas of Particular Concern (GAPCs) Polices and Priority of Uses document located on the Resources section of the CZC webpage?

or is this N/A?

Required:

As applicant or agent, having completed all appropriate checklists and having read the applicable polices, I certify that this project is consistent with the South Carolina Coastal Zone Management Program based on the information outlined above and supplemental information attached.
