SC DEPARTMENT *of* ENVIRONMENTAL SERVICES

Class 2 Landfill Operators Training Course Registration

This course is provided by the S.C. Department of Environmental Service's (SCDES) Division of Compliance and Enforcement.

Training for Class 2 Landfill Operators will be held in Columbia. The primary goal of the training is to provide individuals who work as Class 2 landfill operators a program designed to improve operational practices at their facilities. The training will increase awareness of the impact that the operational practices have on human health and the environment.

Participants will gain insight on:

- operating a facility that is safe for employees and customers;
- maintaining regulatory compliance and environmental integrity at the facility;
- operating profitably and/or cost effectively; and
- improving industry standards though better operation by well-trained solid waste management professionals.

SCDES is offering this training to operators in the public and private sector to improve the operation and overall management of Class 2 landfills. By taking this training, you will:

- gain a better understanding of SCDES regulations;
- learn methods of operation that achieve compliance, improve efficiency and possibly save money;
- learn ways materials can be reused and recycled; and
- have the opportunity to become a professionally trained Class 2 landfill operator.

Come and listen to what other Class 2 landfill operators have accomplished. Share your ideas, problems and concerns. Leave with ideas for improving management, operations, and efficiency that save money and raise personal expectations.

REGISTRATION FORM		
Last Name:	First Name:	
Employer:
