

KEEP IT CLEAN 

recyclerightsc.org

Toby and Hera know not to put recyclables in plastic bags. Keep cans, bottles, paper and the rest loose in your recycling bin.

Thanks for cleaning those jars, **Murphy and Pickle!** Rinse plastic and metal containers before recycling. **Keep all food and liquids out of your recycling bin.**

Sophie and Sadie remove things like hoses, window panes, food and electronics from their family's recycling bin. **These items can damage sorting equipment at the recycling facility.**

RECYCLING IS DOG-GONE GOOD!

These dogs are good, but contamination in your recycling bin is bad. Find out what can and can't be recycled at recyclerightsc.org. **When in doubt, leave it out!**
