

50 WAYS TO CELEBRATE *Earth* DAY

APRIL 22

REDUCE. REUSE. RECYCLE.

- 1. Reduce.** Take actions to reduce waste. Use reusable bags when shopping. Stop unwanted mail. Donate unwanted items.
- 2. Reuse.** Look for items you already own and repurpose them when possible.
- 3. Recycle.** Recycle at home, work and school. If you cannot recycle while on the go, take your recyclables home. Get the **Recycle Here SC App** at your favorite app store to learn more or visit des.sc.gov/recycle.
- 4. Buy recycled.** Look for items made from recycled material and that can be recycled. Many office supplies are made from recycled material.
- 5. Consider using LED lightbulbs to save money and energy.** Remember, they should be recycled when they burn out.
- 6. Compost.** It's easy to do. Learn how to get started at des.sc.gov/compost.
- 7. Don't waste food.** Visit des.sc.gov/dwfsc for food-saving tips, storage ideas and donation information.
- 8. Recycle computers and other electronics.** Many manufacturers, communities and retailers offer collection programs. Learn more at des.sc.gov/e-cycle.
- 9. Recycle used motor oil, bottles and filters.**
- 10. Use rechargeable batteries and devices safely.** Learn more at des.sc.gov/bebatterysmart.

SPARE THE AIR!

- 11. Work a flex schedule.** A flexible work schedule allows you to avoid driving in peak rush hour traffic.
- 12. Consider using a reel or electric mower** and other non-gas-powered equipment for yard work.
- 13. Walk or ride a bike.** Burn carbohydrates instead of hydrocarbons.
- 14. Shop by phone, mail or the Internet.** Fewer vehicle miles traveled will reduce air pollution.
- 15. Carpool, van-pool or ride public transit when possible.** Fewer single-occupancy vehicles on the road reduces air pollution.
- 16. Drive smart.** Slowly increase your car's speed and use cruise control on the highway.
- 17. Don't burn yard trimmings** (e.g., grass clippings, leaves). Compost them to reuse in gardens and flower beds.
- 18. Use water-based or low VOC solvents.** Low volatile organic compound (VOC) products reduces the release of harmful chemicals.
- 19. Keep your vehicle tuned up and your tires properly inflated.** Both help save gasoline as well as make your car safer.
- 20. Do not idle your vehicle.** Turn off your engine if you expect to be stopped for more than 30 seconds (except in traffic). Consider not using drive-through windows, instead park and walk inside.

CONSERVE ENERGY!

- 21. Turn off the lights, TV, radio or computer when you leave the room.**
- 22. Use the sun's light whenever you can.** Sit by a window to read or do activities.
- 23. Decide what you want before you open the refrigerator door.** Holding the door open lets the cold air escape.
- 24. Turn off the dishwasher after the wash cycle.** Let dishes air dry.
- 25. Hang clothes on a clothesline or drying rack** instead of using the dryer.
- 26. Save gas by encouraging your family to walk or bike to nearby places.**
- 27. Enjoy a "No Cooking Day" once a week.** Eat cold cereals, sandwiches, fruits and salads. It'll save energy and it's healthy for you!
- 28. Clean the lint trap of the clothes dryer after every load.**
- 29. Try meatless Mondays.** Meat production uses a large amount of water, cutting meat out once a week can reduce water consumption.
- 30. Use a toaster oven or microwave to cook small casseroles or dishes.**

PROTECT OUR COAST!

- 31. Don't walk on sand dunes.** They help protect the beach from erosion. Use boardwalks, dune walk-overs and designated paths to the beach.
- 32. Leave only footprints in the sand.** Remove all of your trash in addition to any you may see around you. Dispose of litter properly and be sure to recycle any paper, glass or plastic.
- 33. Adopt-A-Beach.** Become a partner in this program to reduce beach litter. Participate and learn more by visiting mycoast.org/sc/beach-cleanup.
- 34. Protect coastal water quality and shellfish beds** by cleaning up after your pet.
- 35. Report high tides, flooding, abandoned boats and storm damage** with MyCoast.org/sc. You can help make an impact and protect our coast.
- 36. Don't disturb sea turtle eggs on the beach.** Sea turtles are an endangered species.
- 37. Respect the plants and animals that depend on a clean and healthy beach.** Don't pick beach plants or touch animals.
- 38. If you see someone harming our coastal creeks, marshes or beaches, report it.** Call 1-800-768-1516.
- 39. Keep storm drains free of trash.** Some empty into rivers and creeks.
- 40. Learn more about our coastal environment.** The more you know about the coast, the better. Learn more at des.sc.gov/bcm.

SAVE WATER RESOURCES!

- 41. Install water-saving showerheads, toilets and faucets.** Look for the WaterSense label to find water-efficient products.
- 42. Run your dishwasher and washing machine only when they have full loads.** Wash clothes in warm or cold water to save energy.
- 43. Turn off the tap.** Turn off the faucet when brushing your teeth or washing your hands and face. Turn faucets tightly to avoid dripping.
- 44. Dispose of hazardous substances properly.** Motor oil, paints and other chemicals should not be poured on the ground, down a storm drain or in a sewer or septic tank.
- 45. Pick up after your pet.** Pet waste runs off lawns and sidewalks, polluting nearby rivers and lakes.
- 46. Get involved.** Sign-up for a local beach, stream or wetland clean-up. Join a watershed protection group.
- 47. Keep a container of drinking water in the refrigerator.** You won't have to let the tap run to get a cool glass of water.
- 48. Install a rain barrel.** Collect rainwater runoff from your roof and use it to water your flowers and garden.
- 49. Use native plants for landscaping.** Native plants and trees often need less water, fertilizer and pesticides.
- 50. Wash your car only when you need to.** When you do wash it, try parking your car on gravel or grass to reduce runoff into the street.
