RE: Reinspection of Dam D-0028, Rocky Ford Lake Dam, Richland County

Dear Mr. Jacobs:

This office performed a routine inspection of the Rocky Ford Lake Dam on December 11, 2012. Enclosed you will find an inspection report which summarizes any comments or concerns.

Also enclosed is a copy of the Emergency Notification and Surveillance Plan. Please keep this in an easily accessible location so that all agencies can be notified as quickly as possible should the dam ever experience difficulty. Should the person responsible for implementing the plan change, our office must be notified immediately.

Provisions in the SC Dams and Reservoirs Safety Act require the owner to notify us within 30 days after transferring title or control of a dam to someone else. Enclosed is a form for your use should this transfer be necessary. Please note that this notification must include the name and address of any new owner.

This dam will be inspected again next year. If you need any assistance or have any questions prior to the next inspection, please do not hesitate to contact us at (803) 896-0620.

Sincerely,

Steven Hauptmann
District Engineer Associate
Central Midlands EQC District Office

INSPECTION REPORT

Date December 11, 2012

Dam D-0028, Rocky Ford Lake Dam, Richland County

Representatives of SCDHEC Present:

Steven Hauptmann

Representatives of Owner Present:

None

Others Present:

None

List of noted deficiencies or items requiring correction/checking:

- All trees and especially those within 50 ft of the centerline of the discharge pipe should be evaluated by an engineer for removal and the stumps/root structure should be removed and repacked.
- A good "grass" cover needs to be maintained on the dam to prevent erosion. Thick pine straw prevents proper inspection for slight seepage and other irregularities.

Note: Dam should remain clear of vegetation year round.

List of previously noted items still uncorrected and dates previously noted:

Emergency Action Plan Updated

Yes _____ No
