

**Particulate (Method 5)**

Test #	Production tons/hr	Emissions		Allowable lb/hr
		gr/dscf	lbs/hr	
1	91.5	0.071	7.00	14.0
2	91.8	0.070	7.12	14.0
Avg.	91.7	0.071	7.06	14.0

Rated Capacity =130 tons/hr.

**Operational Notes**

1. Type II cold mix surface asphalt mix was produced during the test.
2. The rotary dryer was fired with natural gas.
3. The moisture content of the aggregate averaged 3%.
4. Permission has been granted by DHEC to only conduct 2 runs due to storage problems.
5. No visibles were taken during test.
6. The water pressure to the scrubber was approximately 42 psi.

**Status as Tested:**

CM - 9900-0025 Table 6.1 Monitoring and Reporting (PM)..... Compliance

Report Received: June 4, 2004
