Subject: **February** 2023 CA Progress Report

Ms. Kuhn:

In accordance with Item 19 of Consent Agreement (CA) 19-02-HW, this progress report is being submitted to you, including the following requested information:

- (a) a brief description of the actions which Westinghouse has taken toward achieving compliance with the Consent Agreement during the previous month;
- (b) results of sampling and tests, in tabular summary format received by Westinghouse during the reporting period;
- (c) a brief description of all actions which are scheduled for the next month to achieve compliance with the Consent Agreement, and other information relating to the progress of the work as deemed necessary or requested by the Department; and
- (d) information regarding the percentage of work completed and any delays encountered or anticipated that may affect the approved schedule for implementation of the terms of the Consent Agreement, and a description of efforts made to mitigate delays or avoid anticipated delays.

In response to the above requirements, the following is being reported to the Department since the last progress report submitted on **February 10, 2023**. The following progress report is for work occurring from **February 1- 28, 2023**:

- (a) Actions during the previous month:
Completed the following to support completion of the **RI Report, Item 6** of the CA:
 - Submitted the **Final RI Report** on February 28, 2023 (LTR-RAC-23-21), which included:
 - Westinghouse responses to the SCDHEC letter dated December 6, 2022.
 - Revised Appendix D “Historical Remediation Activities,” which included all the data resulting from the removal of sealand containers in the Southern Storage Area Operable Unit.
 - Revised Figures 28, 29, and 30 to correct reversed name labels for W-6 and W-22. The corrections to the figures were editorial in nature, with no impact to the data.

In accordance with the **Feasibility Study (FS) Work Plan, Item 7** of the CA, Westinghouse began preliminary work as follows:

- AECOM continued work to develop the groundwater flow model.
- Held a meeting between CFFF and AECOM personnel on February 22 to develop a draft outline for the FS Work Plan to be reviewed with SCDHEC in March.

(b) Results of sampling and tests:

- None

(c) Brief description of all actions which are scheduled for the next month:

- Hold two separate meetings with the Department in March to:
 - align on the FS Work Plan content and
 - review progress on the groundwater flow model

(d) Percentage of work completed, and any delays encountered or anticipated:

- 100% of the **RI Report** scope is completed.
- 100% of Phase II **field** work scope completed.
- 60% of the **Groundwater Flow Model** is completed.
- Currently there are no anticipated delays.

Respectfully,

Diana P. Joyner
