RE: NPDES General Permit # SCG731522  
LUCK STONE CORP/CHESTER MINE  
Chester County

Dear MARK D WILLIAMS:

A Notice of Intent for coverage under a general NPDES Permit was received on July 15, 2019. Your facility has been assigned General NPDES Permit number SCG731522. All correspondence should reference this General NPDES Permit number. A copy of the NPDES General Permit for Discharges Associated with Nonmetal Mineral Mining Facilities is enclosed. You are responsible for complying with the conditions of this permit.

In addition to this NPDES general permit coverage, this project may be required to obtain other permits before mining may begin. Mines, other than borrow pits for SC DOT or SC Ports Authority projects, are required to obtain a mine operating permit. Mine operating permits are issued through the Division of Mining and Solid Waste Management in the Bureau of Land and Waste Management. If you have questions concerning the mine operating permit process, contact Mr. Joseph Koon at (803) 898-1371.

When you begin construction of this new mine, please inform the DHEC stormwater inspector for the DHEC Region in which the mine is located. To obtain the telephone number, please click on the correct Region at the following link. <https://www.scdhec.gov/ea-regional-offices>.

General Permit coverage is effective on April 1, 2020. Please see the enclosed South Carolina Board of Health and Environmental Control Guide to Board Review.

If you have any questions about the technical aspects of this permit, please contact Brett M Caswell at 803-898-4396. Information pertaining to adjudicatory matters may be obtained by contacting the Legal Office, SCDHEC, 2600 Bull Street, Columbia, SC 29201, or by calling them at (803) 898-3350.

Sincerely,

Crystal Rippey, Manager  
Industrial Wastewater Permitting Section
